

Preferred Alternative 2D Modified

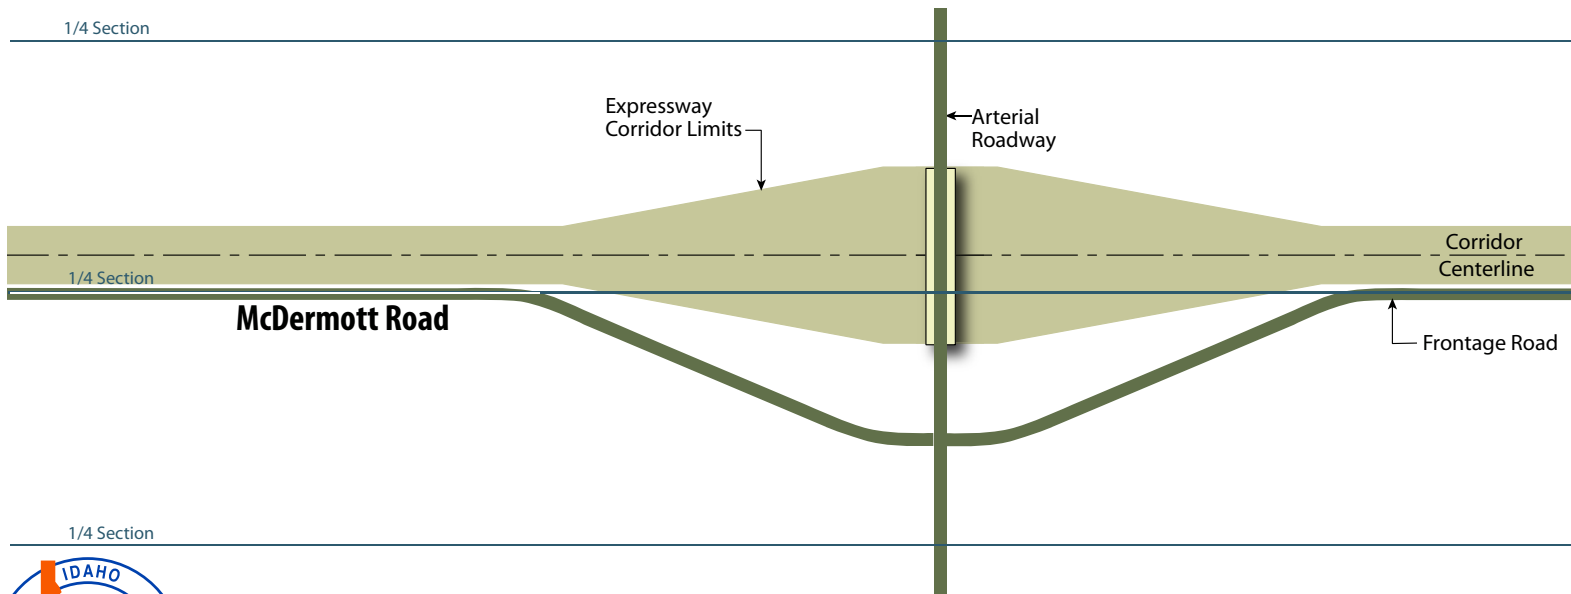

Roadway Corridor

The 300' corridor width accommodates the planned 4-lane roadway and provides for safety, drainage, and utility needs. It also provides space for potential future long-range improvements such as:

- ✓ Additional Capacity – Travel Lanes
- ✓ Multi-Modal Opportunities (Transit, HOV, Other)
- ✓ Frontage Roads
- ✓ Corridor Enhancements
 - Aesthetics
 - Noise Abatement
 - Multi-Use Paths

1/4 Section

Roadway Attributes

EXPRESSWAY

- ✓ Limited Access (Type V)
 - Interchanges Only
- ✓ Overpasses
